# IMPORTANT DON'TS

---

As Vacation X is a promotion offered specially to ByDzyne by an established and travel industry reputed Promoter, please comply with the Don'ts provided by the Promoter.

## IMPORTANT DON'TS

1. DO NOT disclose the Promoter's special gift offering that is provided to ByDzyne (the price you paid, or any other details about the incentive) to any staff or guests of the resort/cruise (vendor)!

The Vacation X Certificate is private and confidential. It is a special promotion for ByDzyne. If you share with their guests and staff, you are breaching the confidentiality we have with the Promoter. The adverse effect will be the cancellation of this promotion from the vendor and/or Promoter.

2. DO NOT solicit other guests or employees about the ByDzyne opportunity or any other business opportunity and do not do any presentations about ByDzyne while on the trip, to anyone!

The resort has warned us not to do so because this is disruptive to the vendor's establishment, their employees and their guests.

3. DO NOT mention "ByDzyne" for any reason.

The vendor does not know who or what ByDzyne is as a company or program. Only the Promoter knows and are familiar with ByDzyne.

4. DO NOT travel as a group (more than 2 rooms) or mention if any other ByDzyne guests are traveling with you on the same dates!

Vacation X is a promotion for individuals and families and is not a group promotion. Therefore, do not promote it as such.

If the vendor perceives this to be a group trip, they may not accept your reservation or they may cancel yours and your group's existing reservation that has already been confirmed.

5. DO NOT become argumentative or demanding with the staff!

As this is a promotional gift and in general you are paying a minimal approximate cost of taxes and fees to the vendor. Therefore you must be respectful to everyone at all times. Any negative behavior will adversely affect the cancellation of this promotion from the vendor and/or Promoter.

6. DO NOT contact PES for any reservation issues.

This promotion is offered by PRIVILEGES and all PRIVILEGES Support details are available on [privilegesredemptioncenter.com](http://privilegesredemptioncenter.com) where you registered for the Vacation X Certificate!

7. DO NOT bring anyone who is not pre-registered on your reservation!

## BD PROTECT EMF PROTECTION STICKER (RESS SPROUTS GROWTH TEST)

The following slides show the results of a test performed by growing cress sprouts in close presence to the electromagnetic radiation from a WiFi router with and without an BD EMF Protection Sticker attached to the router. Included was a control group of sprouts grown 8 feet away from the router with no EMFs present.

BD Protect EMF Sticker On WiFi Router

**Overview** – Above are images demonstrating the main point of the test. On the left is a bowl of cress sprouts after 10 days next to a WiFi router without any EMF protection. On the right is an identical bowl after 10 days next to the WiFi router with a BD Protect EMF Sticker on it. The difference is clear, and startling. In the following pages are the details on the methodology of the test and further images, including of the control bowls.

# BD PROTECT

## BD EMF PROTECT SPROUTS TEST

### Methodology of the Test:

- **Phase 1** – Two bowls of cress sprouts were grown in the same room over a 10-day period. Bowl A was next to a WiFi router with no EMF protection that emitted electromagnetic radiation measurable on a Tri-field EMF measurement meter. Bowl B was 8 feet away, with no detectable radiation near the bowl.
- **Phase 2** – The same two bowls were used to grow a new set of cress sprouts in the same environmental conditions in the 10-day period following Phase 1. In this phase the WiFi router next to Bowl A had a BD Protect EMF Sticker attached to it. Bowl B was still 8 feet away.
- **Material** – The two bowls used were identical. The potting soil used for all bowls was the same amount from the same bag of commercial potting soil, and the cress sprout seeds used for all bowls was the same amount from the same bag of commercial sprout seeds. The lighting and temperature for both bowls in both phases was identical.
- **EMF Conditions** – The electromagnetic radiation from the WiFi router next to Bowl A was detectable and registered in the “red zone” for magnetic and electrical EMFs, at the same levels for both phases of the test. There was no detectable radiation next to Bowl B in both phases of the test.
- **Results** – In Phase 1 the cress sprouts in Bowl A next to the WiFi router were noticeably less healthy and robust than those Bowl B. In Phase 2, with the BD Protect EMF Sticker attached to the WiFi router, the health and robustness of the sprouts in both Bowl A and Bowl B showed no noticeable difference.
- **Conclusion** – The BD Protect EMF Sticker attached to the WiFi router in Phase 2 mitigated the damaging properties of the electromagnetic radiation emitted by the WiFi router, such that the sprouts grew as healthy and robust as those 8 feet away with no radiation in the vicinity.

BD EMF PROTECT TECHNOLOGY

## 1. STORAGE PROCESS

Energetic information is developed through proprietary R&D, then transmitted to and stored on the BD Protect devices.

## 2. BROADCAST PROCESS

Once stored on the device, the energetic information emits vibrational frequencies into the surrounding environment.

## 3. HARMONIZING PROCESS

These frequencies interact with the energy of their targets – namely EMF radiation and the human body – to create a harmonizing/neutralizing effect.

## VALIMENTA LIPOSOMAL GLUTATHIONE

## TESTIMONIAL

Britt A.

AUSTRALIA

My energy and mental agility shifted... the fog lifted, and my mind felt clear. That may sound extreme, but that is how significant and fast my body sensed and absorbed this unique liposome delivery of CELLg8® and how quickly I felt it.

I'm not new to the many benefits of glutathione as a master molecule – in the past I've used other forms of glutathione and whilst I have felt the difference it makes; nothing has been as swift or so easy to include in my day to day wellbeing. Compared to the dosage requirements of other products I used to take (it felt at times like I was rattling! and highly unlikely I was actually absorbing much of it)...Valimenta has changed my life! Not only is it completely organic and vegan, a single dose in the morning and I'm done...energy uplift set, instant delivery of my daily glutathione supplement and a massive boost to my overall health, energy and wellbeing. I've just ordered the Valimenta Curcumin to combine with my Glutathione, I can't wait!

***"I love the TUW  
Smartwatch"***

Karen H.

AUSTRALIA

I haven't worn a watch for the biggest part of 10 years. I figured I had my smartphone to tell me the time.

I was just curious about the TUW Smartwatch so I tried it.

I considered I would use it to track my fitness and the

distance I run and to see if I'm working hard enough by checking my heart rate.

An added bonus is that I hadn't initially considered was that I can set the watch up to see who is messaging or calling me and I can prioritize my time better when in the middle of doing something I want to finish. I never thought I would want to wear a watch at night! I love the fact that it is so comfortable and it tracks my sleeping patterns so I can see how well the ALLUR Sleep CBD and the glutathione help my sleep quality. I can also just tap my phone to see what time it is and not have to find my phone if I wake up in the dark.

Since I joined ByDzyne I have loved the smartwatch that I received with my kit. I no longer have to use several apps, since in the same application I find: sleep monitoring, step counter, calorie monitor, heart rate monitor (very important to me because I tend to have a high heart rate and this helps me to monitor it). I love my watch... I found my personal wellness advisor.
