

BD PROTECT

Are you safeguarding your family?

Technology is now our second-skin in this digital age, and as a result, exposes us to EMFs 24/7. With more awareness of possible negative effects, what are you doing to safeguard you and your family? Through its proprietary bio-energetic technology, BD Protect neutralizes EMF waves and supports your health and well-being as you are exposed every minute of every day.

Protect the ones you love.

Constantly connected, always exposed!

Your body uses electrical signals to accomplish every function vital to your health, from your heartbeat and brainwaves to cell growth and sensory perception. Every day we are exposed to varying man-made EMFs ranging from low-level frequencies (cell phone towers, TVs, microwaves, cars, cell phones, etc.) to high-level frequencies (medical X-rays, lighting, radioactive sources, and ultraviolet rays).

Learn more at www.bydzyne.com/bdprotect

When are you exposed? Think about it...

When you connect to the cloud, use WiFi, access Facebook, check Instagram, check emails, FaceTime with your family, have long conversations with your friends, talk to Alexa or ECHO, use your smartwatch, you are exposed to EMFs. Whenever you are around cell phones, computers, tablets, any electronic devices you are engulfed in electrosmog!

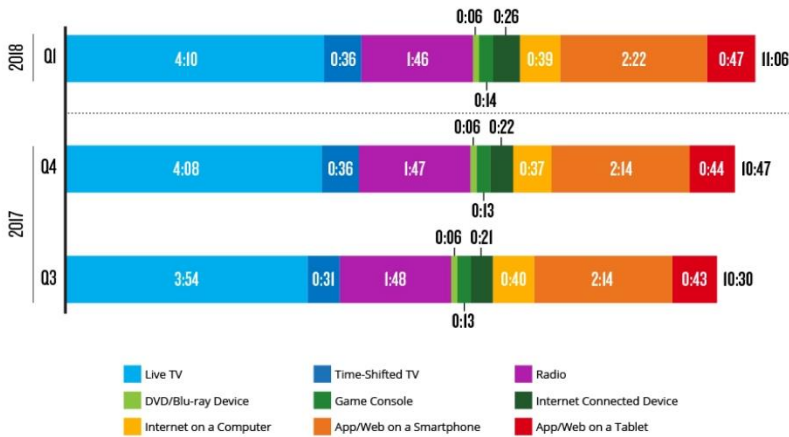

As an electromagnetic being, exposure to man-made sources that produce frequencies and energy that are not consistent with your natural bioelectric rhythms can cause potentially harmful effects on your body and overall well-being. Safeguarding against man-made EMF radiation with man-made EMF solutions has never been more important than now.

Niesen Total Audience Report

n

AVERAGE TIME SPENT PER ADULT 18+ PER DAY

Based on Total U.S. Population

Note: Some amount of simultaneous usage may occur across devices.

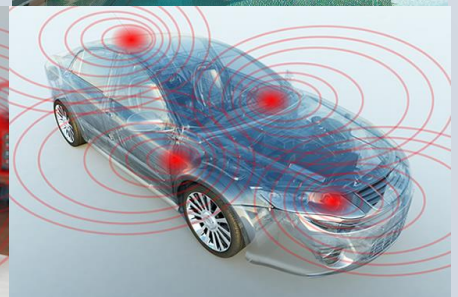

Source: Q1 2018 Nielsen Total Audience Report

According to the Niesen Total Audience Report, nearly 1/2 of an adult's day is dedicated to consuming and interacting with media! Because of the rapid advancements in technology, such as 5G, the ramifications of prolonged exposure based on power and exposure levels are being studied tirelessly with more scientific evidence uncovering new findings of potentially harmful effects every day.

Electromagnetic fields (EMFs)

What Are EMFs?

Electromagnetic fields (EMFs) are a bi-product of flowing electrical currents that release energy, better known as radiation. This invisible energy transmission travels in frequency waves and is present in not just man-made sources, but also in nature and your body.

HOW CAN YOU SAFEGUARD WITH BD PROTECT?

The Power of Bio-Energetic Technology

The Bio-Energetic technology in all of the BD Protect contains “information” that safeguards against potentially harmful effects of EMF radiation. This information is essentially energy of a certain vibrational frequency, which will then influence the energy of EMF waves and the human biofield to create a desired harmonious effect.

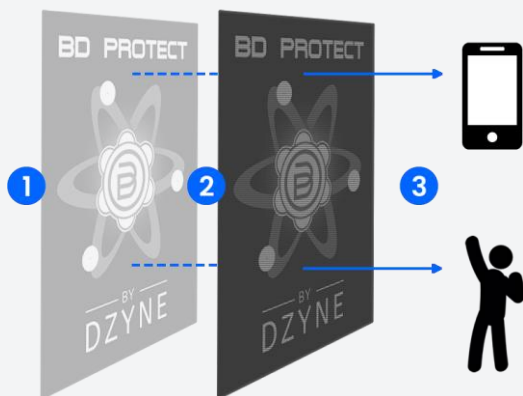

The 2 properties of the information are:

✓ Direct Technology

Creates specific vibrational frequencies that directly acts to harmonize the frequencies found in EMF radiation. The formation of a more harmonious energy field will have less of a negative impact on your well-being.

✓ Adaptive Technology

Contains specific vibrational frequencies that, when transmitted to the body’s biofield, promotes optimization of your body’s energy, thus supporting your optimal level of health by adapting to your unique energetic requirements.

1. STORAGE PROCESS

Energetic information is developed through proprietary R&D, then transmitted to and stored on the BD Protect devices.

2. BROADCAST PROCESS

Once stored on the device, the energetic information emits vibrational frequencies into the surrounding environment.

3. HARMONIZING PROCESS

These frequencies interact with the energy of their targets – namely EMF radiation and the human body – to create a harmonizing/neutralizing effect.

Complete line of products that neutralizes EMFs.

BD PROTECT EMF+ Protection Sticker

Neutralize the EMFs from your cell phone, WiFi router, laptop, iPad and other wireless devices. Its proprietary bio-energetic technology harmonizes the vibrational energy of EMF waves emitted by your wireless device, without affecting its normal functionality.

Suitable for use on:

- ✓ Mobile Phone
- ✓ WiFi Router
- ✓ Laptop / Computer
- ✓ iPad / Tablet
- ✓ Power Supply
- ✓ Cordless Phone
- ✓ Baby Monitor
- ✓ Any Wireless Device

BD PROTECT Home | Office EMF+ Protection Kit

Turn your home, apartment, or office into a safe zone with the Home | Office EMF+ (Electromagnetic Field) Protection Kit. The powerful bio-energetic set of 5 plates that together safeguard all inhabitants within the space while helping to restore the natural balance of negative and positive ions. Whether in your home or office, the plates together neutralize EMF radiation from all devices within the home and those waves that come from outside the home such as your neighbors' WiFi routers, cell phone towers, and utility "smart" meters.

Includes: 1 Fuse Box Plate, 4 Outlet Plates

Suitable for areas up to 1,500 square feet:

- ✓ Home
- ✓ Apartment
- ✓ Office
- ✓ Workplace

Add more for large areas!

Complete line of products that neutralizes EMFs.

BD PROTECT CAR EMF+ Protection Sticker

Create a safe zone for all passengers in your car with the powerful Car EMF+ (Electromagnetic Field) Protection sticker. Our proprietary bio-energetic technology neutralizes EMF waves emitted by:

- Electronics of the car
- Devices within the car
- External radiation sources

Suitable for use in:

- ✓ Any vehicle

For an electric or hybrid vehicle, it is recommended that you install a second plate in the back area of the car.

BD PROTECT EMF+ Protection Bracelet

While driving, shopping, or traveling, in your home, office, or school, we are often exposed to EMFs emitted by many sources – cell phone and wireless devices, WiFi routers, cell phone towers, and countless more. Shield yourself and support your health and well-being when on the go from all forms of EMFs with the stylish BD Protect EMF+ Protection Bracelet.

Infused with 4 extra energy elements that offer an extra level of support to safeguard your health against EMF exposure:

- 1) Far-infrared rays to support normal physiological functioning
- 2) Enhanced energetic grounding to the earth's energy
- 3) Additional energetic support to safeguard against EMFs
- 4) Augmentation of negative ions to support a balanced energy state

Suitable uses:

- ✓ Anytime of the day
- ✓ Waterproof (*can be worn in the shower & swimming*)
- ✓ While sleeping (*although optional if your area is safeguarded by the Home | Office Protection Kit*)

BD PROTECT neutralizes electromagnetic field (EMF) waves exposure

Neutralize the EMFs from your cell phone, Wi-Fi router, laptop, iPad and other wireless devices.

Shield yourself and your passengers by neutralizing the EMFs emitted from the car and external electromagnetic waves.

Create a safe zone where everyone is shielded from EMFs emitted from inside and outside of your home.

Shield yourself when on the go from all forms of EMFs with our stylish wrist bracelet.

RESEARCH & CASE STUDIES

To read the full Cress Sprouts test and to learn more about the harmful effects of EMFs go to www.bydzyne.com/bdprotect

Cress Sprouts Growth Test

No BD Protect EMF+ Sticker after 10 days

With BD Protect EMF+ Sticker after 10 days

This test provides a visual demonstration of the effects of EMF radiation on the growth of cress sprouts, and how the BD Protect EMF+ Protection Sticker neutralizes these effects. On the left is a bowl of cress sprouts after 10 days next to a WiFi router without any BD Protect sticker. On the right is an identical bowl after 10 days next to the WiFi router with a BD Protect sticker on it. The difference is visible.

Fifth Generation Wireless (RF Radiation)

Cellular Radiation (RF Radiation)

Bluetooth Radiation (RF Radiation)

Extremely Low Frequency Radiation (ELF Radiation)

WiFi Radiation (RF Radiation)

Heat Radiation
